THE COTTON MARKET yesterday was very firm for low grades; better grades were offering freely at quotations. The general position of cotton was strong. There was a holiday at Liverpool, and we have therefore no quotations from that market, but New York and New O leans quoted higher. The New York Bulletin of Wednesday says: "Holders still refrained from urging the sale of their supplies, but offered a little more anything, and in some cases intimated that a concession would be made to increase business, but no alteration was made on the general table of q 10tations." The Memphis cotton exchange received the following from the New York Chronicle: "With one exception, progress is satisfactory; that is. the weather is generally suited for good development, and information is mostly favorable, with exception to this, that caterpillar reports come mainly from Middle Alabama, where it rained considerably. In that section, our correspondent thinks the damage is limited; others think it jury has been done to the crops. If there had been dry weather, the trouble in that section would have been arrested, but wet weather damaged the crops." Quototions at the Memphis cotton exchange were as follows: Yesterday. GREAT REDUCTION OF BOARD

A THE CELEBRATED ROCKBRIDGE ALUM SPRINGS.—Owing to the depressed condition of the country, the proprietor has determined to lower his charges, that all may be able to derive the benefits from the use of these justly celebrated waters. They need no recommendation, since they have so fully established their e ficiency through the thousands who have been brought from death's door to renewed health by the use of their wonderful medicinal waters. Since last summer the Chalybeate Spring, which was opened last year, has been thoroughly analyzed by Professor M. B. Harden, of the V. M. I., of Virginia, and by comparison shows it to be fully as strong as "Rawley" of carbonate of iron, having a small quantity more than one and a small quantity less than the other two springs. So in addition to the water that has made these springs so famous, the proprietor takes pleasure in announcing that he can furnish those who may need to drink either separately or in connection with the more celebrated waters of these springs a pure carbenate of iron (chalybeate) water, inferior to none, and equaled only by Rawley, in this State. This at the very cheap rates, with accommodation fully up to any previous year.

First month of four weeks, \$60; two months, eight weeks, \$100.

enare, Biliousuess, cased, Hilledshites, Eliver tompiaint, Bropsy, Tetter, Tumers and sait themm, Worms, Gout, Seavalgi, as a Dinner Pill, and Purifying the Blood, are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all the Pills. They are safe and pleasant to take but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action; and they impart health and tone to the whole being. They cure not only the every day complaints of dered organ into action; and they impart health and tone to the whole being. They cure not only the every day complaints of everybody, but formidable and dangerous diseverybody, but formidable and dangerous dis-eases. Most skilful physicians, most eminent clergymen, and our best citizens send certifi-cates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar-coated, they are easy to take; and being purely vege-table, they are entirely harmiess.
